

# Vent-Valve-Tester DC-600

In accordance with the respective, applicable OMM/CMM, especially the original manufacturers SAFT and Hawker/Varta but also Marathon are recommending to clean/inspect the vent valves of the aviation batteries regularly during the periodic check of every 12 month

In order to meet the original manufacturers specific recommendations, D+C Airparts has specially designed a vent valve test equipment and the necessary test adapters. With these practical new designs, all frequent vent valves of the a.m. manufacturers can be easily and professionally tested.

## 1. Inspection Diagram DC-600

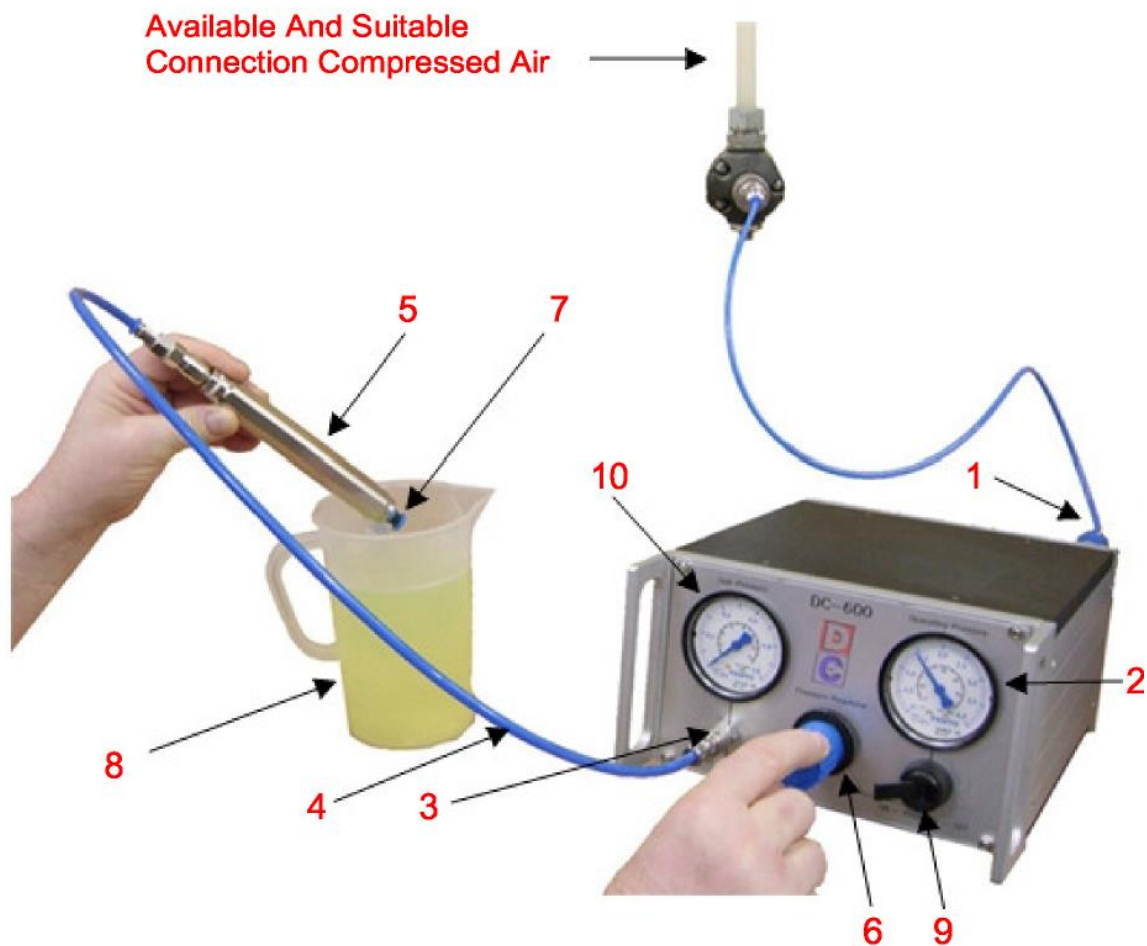

Table of Illustrated Position-Numbers:

- 1 Backside Connection
- 2 Manometer (Operating Pressure)
- 3 Test Connector
- 4 Connecting Hose
- 5 Vent Valve Adapter
- 6 Pressure Regulator
- 7 Vent Valve / O-Ring
- 8 Water Container
- 9 Flip Switch
- 10 Manometer (Test Pressure)

## 2. Accessories and Spare Parts

### Adapter

P/N: DC-VT-U-B17

P/N: DC-VT-U-B40

P/N: DC-VT-M-G3

P/N: DC-VT-M-G5

P/N: DC-VT-V15.17

P/N: DC-VT-V25.40

P/N: DC-VT-SM5

P/N: DC-VT-SM6

P/N: DC-VT-SM8

### Spare Parts

Connection Hose

P/N: DC-VL1.0

Filter

P/N: DC-526818

## Vent Valve / Test-Adapter Ref.-List

SAFT
